

# INNOVATIONS IN GRAPH THEORY

A **diamond open access** journal for high-quality research in graph theory and its interactions with other areas, including

- ▶ directed graphs
- ▶ extremal graph theory
- ▶ graph algorithms and complexity
- ▶ hypergraphs
- ▶ infinite graphs
- ▶ matroids
- ▶ probabilistic graph theory
- ▶ structural graph theory
- ▶ topological graph theory

free for authors  
free for readers

## Editors

**Marthe Bonamy** (CNRS, U. Bordeaux)  
**Johannes Carmesin** (University of Birmingham)  
**Maria Chudnovsky** (Princeton University)  
**Louis Esperet** (CNRS, U. Grenoble Alpes)  
**Fedor Fomin** (University of Bergen)  
**Frédéric Havet** (CNRS, Université Côte d'Azur)  
**Ross Kang** (University of Amsterdam)  
**Gwenaël Joret** (Université Libre de Bruxelles)

**Tomáš Kaiser** (University of West Bohemia)  
**Peter Keevash** (Oxford University)  
**Dan Král'** (Masaryk University)  
**Kenta Ozeki** (Yokohama National University)  
**Alex Scott** (Oxford University)  
**Jean-Sébastien Sereni** (CNRS, U. Strasbourg)  
**Sophie Spirkl** (University of Waterloo)  
**Maya Stein** (Universidad de Chile)
