1	djb	81	07 Apr 11:36	this is a test by DJB
2	djb	82	07 Apr 11:51	testing again (DJB)
3	djb	83	07 Apr 16:20	test
4	ling	96	11 Apr 15:43	English, American English (New England)
5	ling	97	11 Apr 21:17	American English (General American)
6	ling	100	11 Apr 21:20	native speaker of British English (simultaneous Dutch-English bilingual)
7	ling	101	11 Apr 21:24	American English (California)
8	ling	102	11 Apr 21:25	L1 = Finnish and Spanish. I am fluent in English and can sometimes pass for a native speaker; it is currently my strongest language.
9	ling	105	11 Apr 21:26	Native, American English.
10	ling	106	11 Apr 21:29	native: Polish, English: fluent
11	ling	107	11 Apr 21:29	C1 (CEF)
12	ling	108	11 Apr 21:35	American English
13	ling	111	11 Apr 21:38	American English
14	ling	112	11 Apr 21:41	British English (native) and Chinese (Cantonese dialect: native).
15	ling	115	11 Apr 21:43	German. English C1
16	ling	116	11 Apr 21:44	hiberno-english
17	ling	117	11 Apr	American English

			21:45	
18	ling	118	11 Apr 21:50	Scottish English, Australian English & American English
19	ling	124	11 Apr 23:11	english english
20	ling	125	11 Apr 23:37	Native speaker of American English
21	ling	126	12 Apr 0:05	American English
22	ling	127	12 Apr 0:23	Australian English
23	ling	128	12 Apr 0:32	English English
24	ling	129	12 Apr 0:42	American English
25	ling	130	12 Apr 1:30	Hiberno-English
26	ling	132	12 Apr 4:30	Age 1-10 British English, then at age 11 I moved to USA.
27	ling	133	12 Apr 5:11	I am a native speaker of Russian, completely fluent, native-like in English
28	ling	134	12 Apr 6:28	No-native speaker Medium
29	ling	135	12 Apr 6:52	native speaker of American English
30	ling	137	12 Apr 7:27	German; English very good
31	ling	138	12 Apr 7:38	the square with th three dots/items/shapes in it
32	ling	139	12 Apr 7:41	se eng
33	ling	140	12 Apr 8:54	native language: German English proficiency: very good
34	ling	141	12 Apr 9:08	New Zealand English
35	ling	142	12 Apr 9:09	Australian English

36	ling	144	12 Apr 9:31	I am 'almost' a native speaker of American English. My native language is Danish.
37	ling	146	12 Apr 10:46	English (American, west coast)
38	ling	148	12 Apr 11:37	Standard British English
39	ling	149	12 Apr 11:54	Native English, born 1937 and raised in Jacksonville, Florida except for age 2 to 5 in Waycross, Georgia. BA (math/psych) and JD (law) from the U of Florida. Moved to Israel in 1970 and now live in Petah Tikva.
40	ling	150	12 Apr 13:43	Spanish Bilingual
41	ling	152	12 Apr 14:10	American English
42	ling	153	12 Apr 14:13	American English (also native in French)
43	ling	154	12 Apr 14:28	American English (Northeastern US)
44	ling	155	12 Apr 14:30	Native speaker of British English
45	ling	156	12 Apr 14:33	Dutch, fluent in English as L2
46	ling	157	12 Apr 14:39	Native: German. English proficiency: "Near-native" (1 year's stay in Wiltshire, England)
47	ling	158	12 Apr 14:39	English (Canadian)
48	ling	159	12 Apr 14:46	American English
49	ling	160	12 Apr 14:49	English, American (west)
50	ling	162	12 Apr 15:05	English
51	ling	163	12 Apr 15:07	Polish, level of English IELTS 8.5
52	ling	164	12 Apr 15:14	American English
53	ling	165	12 Apr 15:47	American English
54		167	12	

54	ling	167	Apr 16:01	native Turkish speaker, with fluent English (educated in American English)
55	ling	168	12 Apr 16:06	native American English
56	ling	169	12 Apr 16:13	British English
57	ling	170	12 Apr 16:19	German English toefl test 297 out of 300 possible points
58	ling	171	12 Apr 16:21	American English with a strong Canadian colour
59	ling	173	12 Apr 16:42	American English (California)
60	ling	175	12 Apr 16:48	North Central American English
61	ling	176	12 Apr 17:16	American English
62	ling	177	12 Apr 20:07	Irish English
63	ling	178	12 Apr 23:20	South African English
64	ling	179	13 Apr 0:33	English, raised in Pittsburgh and St. Louis by native-speaking parents
65	ling	180	13 Apr 8:40	fluent
66	ling	181	13 Apr 9:45	German, fluent speaker of English (started learning English at 10, then majored in English Studies, lived in Canada for a year, now completing a Master's degree in the Netherlands, but all classes and assignments are in English)
67	ling	185	13 Apr 16:16	native Canadian english
68	ling	188	13 Apr 17:20	American English
69	ling	189	14 Apr 0:23	American English
70	ling	190	14 Apr 13:37	Russian. Level: native-like English
71	ling	191	14 Apr 18:24	Native language is Dutch, proficiency in English is native (S-5)
72	ling	192	15 Apr	Nonnative speaker of English. Quite proficient speaker, studied in England and have been teaching English for 6 years.

			18:51	
73	ling	193	16 Apr 17:17	Native speaker of American English
74	ling	194	24 Apr 14:19	Native, South-East England
75	ling	195	04 May 15:54	English (UK)
76	ling	196	20 May 8:44	English
77	ling	197	23 May 16:37	English English (South of England)
78	raquel	86	07 Apr 16:47	test; the previous one by xxxx was also a test
79	xxxx	84	07 Apr 16:38	catalan/spanish native

**Item 1 XYY-NR-L1**

	Who	ID	Response
1	djb	81	the one with the most Xs
2	djb	82	f
3	djb	83	f
4	ling	96	Over 30 brown diamond squares
5	ling	97	the square with the most figures in it
6	ling	100	largest number of squares
7	ling	101	The one with the most ovals
8	ling	102	the one with most crosses in it
9	ling	105	The square with the most dots.
10	ling	106	the one where the most circles are
11	ling	107	square containing most squares
12	ling	108	The one with the largest number of red diamond-shaped figures, covering the largest area.
13	ling	111	The square with the most purple triangles
14	ling	112	Mass of shapes with some on the lefthand side forming a vague reverse S-shape.
15	ling	115	The one with most triangles
16	ling	116	the most triangles
17	ling	117	a whole lot of red rings, 30 or so
18	ling	118	The square with the most dashes.
19	ling	124	the one with the most squares
20	ling	125	The square with the greatest number of orange objects in it
21	ling	126	The one with the most lines in it.
22	ling	127	The square containing the greatest number of shapes.
23	ling	128	most
24	ling	129	Approximately 31 red plus signs
25	ling	130	Square with largest quantity of items
26	ling	132	It has the largest number of Xs.
27	ling	133	the square with the biggest number of lines
28	ling	134	square with maximum squares shaped signs
29	ling	135	the square with the most marks
30	ling	137	The square is the one with the most brown triangles in it.

32	ling	138	the square with the most triangular shapes
33	ling	140	the square with the most items inside
34	ling	141	The one with the most shapes.
35	ling	142	The square with the most circles in it.
36	ling	144	it has the most ovals in it.
37	ling	146	The one with the most dots.
38	ling	148	The square with the most things in.
39	ling	149	Two squares have the same number of shapes (11 on my screen). The highlighted square has a different number of shapes (31 on my screen).
40	ling	150	The one with the highest number of figures.
41	ling	152	The one with the most dots.
42	ling	153	The one with the most circles
43	ling	154	A bunch of yellow bow ties in the middle of the square.
44	ling	155	it is the square with the greatest number of pacman shapes
45	ling	156	The square with the most circles in it.
46	ling	157	The square with the most circles
47	ling	158	It's the square with the most small brown figures
48	ling	159	the square has the highest number of triangular-shaped objects in it
49	ling	160	Select the square with the most objects in it.
50	ling	162	the square with about 25 black x's
51	ling	163	the square with the largest number of purple diamonds
52	ling	164	The square with the most pacmen.
53	ling	165	the square with the most x's in it
54	ling	167	the most crowded.
55	ling	168	the square with the most orange dashes in it
56	ling	169	The square contains the largest number of dots.
57	ling	170	the one with most crosses
58	ling	171	the one with the largest number of plus signs
59	ling	173	The square with the most triangular shapes in it.
60	ling	175	The square with the most circles.
61	ling	176	Nicely random distribution of solid gold squares filling much of the frame; they appear to occupy an invisible square container. One gold square is positioned exactly in the upper right "corner" of the invisible larger square; the other corners are not occupied.
62	ling	177	the square with the most diamonds in it
63	ling	178	The square with the most crosses in it.
64	ling	179	The square with more than 20 blue-green circles in it.
65	ling	180	square with the largest number of small figures
66	ling	181	The highlighted square has the highest number of triangles
67	ling	185	There's those 31 marks again, only represented by dashes
68	ling	188	The square with the greatest number of small green squares.
69	ling	189	the box with the most blue-edged squared circles.
70	ling	190	with the biggest group of squares in it
71	ling	191	The one with the most shapes in it
72	ling	192	the one with the largest number of green spots.
73	ling	193	THE square with a bazillion teal diamonds?
74	ling	194	The one with the most crosses

75	ling	195	the square with most bowties
76	ling	196	the one with the most lines in it
77	ling	197	The square containing the largest number of lines
78	raquel	86	m
79	xxxx	84	more triangles

Item 2 XYY-NR-L2

	Who	ID	Response
1	djb	81	the one with the most dots
2	djb	82	ff
3	djb	83	f
4	ling	96	30 grey plus signs
5	ling	97	the square with lots of lines in it
6	ling	100	largest number of circles
7	ling	101	The one with the most pac-man shapes
8	ling	102	the one with most donuts in it
9	ling	105	The square with the most Xs.
10	ling	106	the one with the most bow-ties
11	ling	107	square containing the highest number of circles
12	ling	108	The one with the most purple crosses, many more than the others.
13	ling	111	The square with the most ribbon shaped designs
14	ling	112	Around two dozen shapes, with one shape on the lower left least together with the rest.
15	ling	115	The one with most shapes
16	ling	116	the most shapes
17	ling	117	large number of brown pellets, like 30
18	ling	118	The square with all the crosses.
19	ling	124	the one with the most (bow-tie-like) shapes
20	ling	125	The square with the most red objects in it
21	ling	126	The one with lots of bowtie shapes in it.
22	ling	127	The square containing the greatest number of diamonds.
23	ling	128	one with most
24	ling	129	31 green squares
25	ling	130	Square with largest amount of items
26	ling	132	It has the largest number of green circles.
27	ling	133	the square with many objects
28	ling	134	sqaure with maximum - signs
29	ling	135	the square with the most dots in it
30	ling	137	The square has at least twenty crosses in it (that might be ordered to a leaf form)

31	ling	138	the square with the most shapes inside it
32	ling	139	
33	ling	140	the square with the most items
34	ling	141	The one with the most lines inside.
35	ling	142	The square with the most shapes in it.
36	ling	144	It has a lot of square in it.
37	ling	146	The one with the most symbols.
38	ling	148	The square with the most figures in.
39	ling	149	Two squares have the same number of shapes (3 on my screen). The highlighted square has a different number of shapes (31 on my screen).
40	ling	150	The one with the highest number of triangles.
41	ling	152	The box with the most dashes.
42	ling	153	The one with the most in it
43	ling	154	A bunch of horizontal lines filling the middle of the square.
44	ling	155	The relevant square has the largest cluster of mini triangles within it
45	ling	156	The square with the most ovals in it.
46	ling	157	The square with the many crosses
47	ling	158	It's the square with the most small yellow bow-tie shapes
48	ling	159	the square has the highest number of ovular-shaped objects in it
49	ling	160	Select the square with more than 3 shapes.
50	ling	162	the square with about 30 pink 3/4 circles
51	ling	163	the one with the largest number of leaves
52	ling	164	The square with lots of little sideways hourglasses in it.
53	ling	165	the square with lots of little squares in it
54	ling	167	the most crowded.
55	ling	168	the square with the most purple circles
56	ling	169	The square contains the largest number of dots.
57	ling	170	The one with many dots in it.
58	ling	171	the one with the most dots
59	ling	173	The square with the most blue-green circle-like shapes in it.
60	ling	175	The square with the most diamonds.
61	ling	176	Large cluster of open brown squarish circles, with a strong sense of being oriented on a diagonal from upper left to lower right. The overall circle distribution of circles is roughly symmetrical with a small gap slightly to left of center.
62	ling	177	the square with several triangles in it
63	ling	178	The square with the most crosses in it.
64	ling	179	The square with more than 20 colored diamonds in it.
65	ling	180	square with the largest number of dots
66	ling	181	
67	ling	185	I already described this one
68	ling	188	The square with lots of blue triangles.
69	ling	189	the box with the most 'bowtie' shapes inside.
70	ling	190	small squares fill in the area that makes approximately another square in the centre inside the box, starting 1 cm from each margin.
71	ling	191	The one with all those triangles in it
72	ling	192	the one that contains lots of little shapes.
73	ling	193	the square with a whole lot of gold circles.

74	ling	194	The one with the most circles inside
75	ling	195	the most green quares
76	ling	196	the one with the most shapes in it
77	ling	197	The square containing the largest number of diamonds
78	raquel	86	many
79	xxxx	84	many

**Item 3 XYY-NR-S1**

	Who	ID	Response
1	djb	81	few circles
2	djb	82	ff
3	djb	83	f
4	ling	96	11 green triangles
5	ling	97	the square with the fewest figures in it
6	ling	100	11 ovals
7	ling	101	The one with the least ovals
8	ling	102	the one with the fewest Pac-Mans
9	ling	105	The square with the fewest lines.
10	ling	106	the one with the least triangles
11	ling	107	square containing the smallest number of squares
12	ling	108	The one with the fewest greenish-yellow dashes.
13	ling	111	The box with the fewest ribbons
14	ling	112	Then shapes generally in middle of square, generally not close together, but with one or two pairs touching.
15	ling	115	The one with the smallest number of shapes
16	ling	116	the one with the fewesr number of xs
17	ling	117	about a dozen brown Xs
18	ling	118	The square with the fewest triangles.
19	ling	124	the one with the fewest ovals
20	ling	125	The square with the fewest blue triangles
21	ling	126	The one with the fewest shapes in it.
22	ling	127	The square containing the least number of dots.
23	ling	128	11
24	ling	129	11 sideways hourglasses
25	ling	130	Square with smallest quantity of items
26	ling	132	It has the fewest number of crosses.
27	ling	133	the square with the smallest number of objects
28	ling	134	sqaure with eleven dots in it
29	ling	135	the square with the least number of diamonds in it
30	ling	137	The square has some 10 crosses inside.

31	ling	138	the square with the less shapes inside it
32	ling	139	
33	ling	140	the square with the least items inside
34	ling	141	The one with the least shapes inside it.
35	ling	142	The square with the least pacmen in it.
36	ling	144	It has less lines than the others.
37	ling	146	The one with the fewest symbols.
38	ling	148	The square with the least things in.
39	ling	149	Two squares have the same number of shapes (31 on my screen). The highlighted screen has a different number (11 on my screen).
40	ling	150	The one with neither the largest not the smallest number of figures.
41	ling	152	The box with the fewest squares.
42	ling	153	The one with the fewest crosses
43	ling	154	a small tight group of green crosses in the middle of the square.
44	ling	155	It is the square with the smallest number of line-shapes
45	ling	156	The square with the smallest amount of crosses.
46	ling	157	The square with the least dots
47	ling	158	The square contains eleven circles clustered near the centre of the square
48	ling	159	the square has the lowest number of square-shaped objects in it
49	ling	160	Select the square with the fewest objects in it.
50	ling	162	the square with 10 blue triangles
51	ling	163	the one with the smallest number of pink oval shapes
52	ling	164	The square that has the fewest plus-signs in it.
53	ling	165	the square with the smallest number of shapes in it
54	ling	167	The least crowded.
55	ling	168	the square with the fewest teal square in it
56	ling	169	The square contains the smallest number of dots.
57	ling	170	the one with fewest triangles
58	ling	171	the one with the fewest dots
59	ling	173	The square with the fewest circles in it.
60	ling	175	The square with the fewest dots.
61	ling	176	Smallish cluster of 11 solid blue triangles, arranged with a rough vertical line of four on the outer left edge and with a diagonal line of three slanting down and out on the right edge.
62	ling	177	the square with the fewest of those funny shapes in it
63	ling	178	The square with the least little brown squares in it.
64	ling	179	The square with exactly 10 green marks in it.
65	ling	180	square with the smaller number of squares
66	ling	181	The highlighted square contains less beige squares than the other two
67	ling	185	I already described this one
68	ling	188	The square with the fewest red X's.
69	ling	189	the one with the least amount of triangles - 11.
70	ling	190	with the smallest group of items in it
71	ling	191	The one with the fewest crosses in it
72	ling	192	the one with the fewest crosses.
73	ling	193	the square with 11 red triangles
74	ling	194	The one with the fewest diamonds

75	ling	195	the fewest bow-ties
76	ling	196	the one with the least crosses in it
77	ling	197	The square containing the smallest number of dots
78	raquel	86	f
79	xxxx	84	a few

**Item 4 XYY-SR-L1**

	Who	ID	Response
1	djb	81	three dashes
2	djb	82	f
3	djb	83	f
4	ling	96	3 green diamond squares
5	ling	97	the square with 3 figures in it
6	ling	100	3 lines
7	ling	101	The one with three circles
8	ling	102	the one with three Pac-Mans
9	ling	105	The square with three shapes.
10	ling	106	the one with three
11	ling	107	square containing three crosses
12	ling	108	The one with three dashes (versus two with one dash each).
13	ling	111	The square with three pacmans
14	ling	112	Three shapes arranged one on top and two bottom in middle of square.
15	ling	115	The one with more squares than the other two.
16	ling	116	three xs
17	ling	117	three butterflies in a clump
18	ling	118	The square with three circles in it.
19	ling	124	3 of the circles with triangular bites out of them
20	ling	125	The square with three grey diamonds in it
21	ling	126	The one with the three dots in it.
22	ling	127	The square containing three dots.
23	ling	128	3
24	ling	129	three pink plus signs
25	ling	130	Square with 3 items
26	ling	132	It has three oblong shapes, while the other boxes have one each.
27	ling	133	the square with three objects
28	ling	134	square with maximum dots in it(3 dots)
29	ling	135	the square with three little squares in it
30	ling	137	The square has three dots inside.

31	ling	138	the square with the three crosses
32	ling	139	
33	ling	140	the square with the most items inside
34	ling	141	The one with three crosses
35	ling	142	The square with three triangles in it.
36	ling	144	It has 3 ribbons.
37	ling	146	The one with three symbols.
38	ling	148	The square with three little squares in.
39	ling	149	Two squares have the same number of shapes (on my screen, 1 shape each). The highlighted screen has a different number of shapes (3 on my screen).
40	ling	150	The one with three green squarish figures in it.
41	ling	152	The box with three plusses.
42	ling	153	Three lines
43	ling	154	2 horizontal lines in the middle of the square.
44	ling	155	It is the square with three mini-squares in it
45	ling	156	The square with three dots.
46	ling	157	The square with three objects
47	ling	158	The square contains three pink dots
48	ling	159	the square has three objects shaped like X in it
49	ling	160	Select the square with three diamonds.
50	ling	162	the square with 3 solid red circles
51	ling	163	the square with three pink triangles
52	ling	164	The square with three little triangles.
53	ling	165	the square with three lines in it
54	ling	167	the most crowded.
55	ling	168	the square with three orange pacman shapes
56	ling	169	The square contains three dots.
57	ling	170	the one with three objects
58	ling	171	the one with three dots
59	ling	173	The square with three squares in it.
60	ling	175	The square with three squares.
61	ling	176	Three green X's clustered closely around center of frame. Two at top align horizontally.
62	ling	177	the square with three 'x-es' in it
63	ling	178	The square with three purple hyphens in it.
64	ling	179	The squire with three x'es in it.
65	ling	180	three dots
66	ling	181	The relevant square contains three pink crosses
67	ling	185	I already described this one
68	ling	188	The square with three orange bow ties.
69	ling	189	The box with three little Pacmen inside
70	ling	190	with three crosses in it
71	ling	191	The one with the three shapes
72	ling	192	the one with the three dots.
73	ling	193	THE square with three brown squares
74	ling	194	The one with three pokemons
75	ling	195	three circles

76	ling	196	the one with three squares in it

8	ling	102	the one with the most things in it
9	ling	105	The square with the most lines.
10	ling	106	the one with the most circles
11	ling	107	square containing most symbols
12	ling	108	The one with the most red X signs.
13	ling	111	The square containing the most green squares
14	ling	112	Mass of shapes, maybe two dozen or so, with two shapes on upper-right in horizontal alignment.
15	ling	115	The one with the most crosses
16	ling	116	the most circles
17	ling	117	a large number of pacmen facing right, like 30
18	ling	118	The square with the most squares in it.
19	ling	124	with the most triangles
20	ling	125	The square with the greatest number of orange exes in it
21	ling	126	The one with lots of little thingies in it.
22	ling	127	The square containing the greatest number of shapes.
23	ling	128	biggest number of dots
24	ling	129	approximately 32 circles
25	ling	130	Square with largest amount of items
26	ling	132	It has the largest number of butterfly shapes.
27	ling	133	the square with the largest number of bowties
28	ling	134	the square which contains more dots than the other two squares
29	ling	135	the square with the most x's in it
30	ling	137	The square with the most dots (more than 20) is the one.

32	ling	138	the square with the most shapes inside it
33	ling	140	the square with the most items inside
34	ling	141	The one with most shapes.
35	ling	142	The square with the most shapes in it.
36	ling	144	The square with the most squares in it.
37	ling	146	The one with the most symbols.
38	ling	148	The square with the most things in.
39	ling	149	Each square has a different number of shapes (3, 11, and 31 on my screen). The highlighted square has the most shapes (31 on my screen).
40	ling	150	The one with the highest number of crosses.
41	ling	152	The one with the most dashes.
42	ling	153	The one with the most circles in it
43	ling	154	A bunch of bow-tie shapes filling most of the middle of the square.
44	ling	155	It is the square with the greatest number of ovals in it
45	ling	156	The square containing the most stripes.
46	ling	157	The square with the most pac-men
47	ling	158	It's the square containing thirty-one grey ovals
48	ling	159	the shape has the highest number of shapes like bowties or hourglasses in it
49	ling	160	Select the square with the most objects in it.
50	ling	162	the square with about 30 green 3/4 circles
51	ling	163	the one with the largest number of brown squares
52	ling	164	The square with the most dots in it.
53	ling	165	the square with the most circles in it
54	ling	167	the most crowded.
55	ling	168	the square with the most brown triangles
56	ling	169	The square contains the largest number of dots.
57	ling	170	the one with many dots
58	ling	171	the one with the most bows
59	ling	173	The square with the most pacman shapes in it.
60	ling	175	The square with the most pacmans.
61	ling	176	Large group of solid gray dots filling most of frame. There's a subgroup forming the upper two-thirds of a circle in the upper right corner of the group; a large gap in the upper left quadrant; and a lone dot in the lower left corner of the group.
62	ling	177	the square with the most of those funny shapes in it
63	ling	178	The square with the most Pacman-shaped things in it.
64	ling	179	The square with more than 20 red xes in it.
65	ling	180	square with the largest number of horizontal lines
66	ling	181	The highlighted square contains the highest number of lines
67	ling	185	the square with thirty-one small yellow circles closely clusted in a haphazard fashion
68	ling	188	The square with lots of dark dashes.
69	ling	189	the box with the most little black squares/diamonds
70	ling	190	the biggest group of figures
71	ling	191	The one with the most squares
72	ling	192	the one with the largest number of triangles.
73	ling	193	the square with a bazillion teal squares
74	ling	194	The one with the most crosses

75	ling	195	the square with the most green paemen
76	ling	196	the one with the most ovals in it
77	ling	197	The square containing the largest number of bows
78	raquel	86	many
79	xxxx	84	the one with many pluses

Item 9 XYZ-NR-M1

	Who	ID	Response
1	djb	81	medium number of squares
2	djb	82	f
3	djb	83	f
4	ling	96	21 purple Pac-mans, or purple pies missing a slice
5	ling	97	the square with the second largest number of figures
6	ling	100	medium number of diamonds
7	ling	101	The one with the medium number of Xs (not the most, not the least)
8	ling	102	not the one with the most or the fewest dots, but the one in the middle
9	ling	105	The square with neither the most nor least shapes in it.
10	ling	106	the one with the in-between number of squares
11	ling	107	the square containing neither the highest nor the smallest number of stripes
12	ling	108	The one with an intermediate number of black diamonds.
13	ling	111	The square with 21 pacman signs (again, i would say "pacman" assuming the audience is familiar with that terminology)
14	ling	112	Dozen or so shapes vaguely in the shape of a roundish top and tripod-ish legs. Centre of this collection of shapes is empty.
15	ling	115	The one with the medium amount of shapes
16	ling	116	
17	ling	117	a medium-sized number of green pellets, like 20 or so
18	ling	118	The square with the middle number of crosses.
19	ling	124	with neither the most nor the fewest crosses
20	ling	125	The square with the middling number of purple crosses in it
21	ling	126	The one with the second largest number of triangles.
22	ling	127	The square containing the middle number of crosses.
23	ling	128	middle number of squares
24	ling	129	21 orange circles
25	ling	130	Square with median amount of items
26	ling	132	It has twenty green crosses; one of the other boxes has more and the other fewer.
27	ling	133	the square with neither the biggest nor the smallest number of dots
28	ling	134	square containing second highest dots
29	ling	135	the square with the medium number of marks in it

30	ling	137	The square has 21 pink crosses in it
31	ling	138	the square with the more but not the most lines in it
32	ling	139	
33	ling	140	the square with 21 items inside
34	ling	141	Not the one with the least nor the one with the most shapes in it.
35	ling	142	The square with that doesn't have the most or the least circles in it.
36	ling	144	The amount of Xs is in between the other two squares.
37	ling	146	The one with the not the fewest but also not the most symbols.
38	ling	148	The square that has neither the most nor the least crosses in.
39	ling	149	All 3 squares have a different number of shapes (11, 21, and 31 on my screen). The highlighted screen has the median number (21 on my screen).
40	ling	150	There are three squares with brown crosses in them; it's the one with in between the other two as to the number of crosses.
41	ling	152	The one with the middle number of dots.
42	ling	153	Not the most crosses, not the least crosses - in between amount
43	ling	154	a bunch of grey squares grouped in the middle of the square.
44	ling	155	It is the square with the middle amount of circles in it
45	ling	156	Not the square with the fewest of the most pacman figures in it, but the one with a medium amount in it.
46	ling	157	The square with the second most dots
47	ling	158	The square contains twenty-one crosses
48	ling	159	the square has 21 ovular objects
49	ling	160	Select the square with neither the most nor the least objects in it.
50	ling	162	the square with about 20 green dashes
51	ling	163	the one with twenty one yellow circles
52	ling	164	The square that seems to have neither the most nor the fewest hourglasses in it.
53	ling	165	the square with the middle number of x's in it -- not the most, not the least
54	ling	167	not the most crowded and not the least crowded.
55	ling	168	the square with an intermediate number of purple bowties
56	ling	169	It's the square that contains neither the highest nor the smallest number of dots.
57	ling	170	the one with a medium amount of crosses
58	ling	171	the one with the second largest number of exes (about 20)
59	ling	173	The square with the middle number of x's in it (not the most and not the least).
60	ling	175	The square with the middle amount of circles.
61	ling	176	A large collection of red dashes symmetrically centered in the frame and organized to fill in an invisible square; there is an equal amount of white space at the top, bottom, left, and right that frames the dashes.
62	ling	177	the square with the middle amount of dots in it
63	ling	178	The square with a moderate amount of blue blocks in it: not the most or the least.
64	ling	179	The square with about 20 green diamonds in it.
65	ling	180	square with 21 little circles
66	ling	181	There's one square with more beige squares in it than the highlighted one, and one square with less beige squares than the highlighted one.
67	ling	185	21 oblong green dots aranged into several small arcs and with the arcs randomly intersecting each other
68	ling	188	The square with a medium number of green triangles, not the most and not the least.
69	ling	189	the square with the middle amount of lines - not the most, not the least.
70	ling	190	medium-size group of crosses

71	ling	191	The one which has the medium number of shapes
72	ling	192	the square with 21 pacman faces.
73	ling	193	the square with 21 black x's
74	ling	194	The one with the middle number of squares
75	ling	195	the square with the medium number of red pacmen
76	ling	196	the one with the middle amount of dots in it
77	ling	197	The square containing the middle number of crosses
78	raquel	86	middle
79	xxxx	84	middle

**Item 10 XYZ-NR-S1**

	Who	ID	Response
1	djb	81	the one with the least pacman shapes
2	djb	82	ff
3	djb	83	ff
4	ling	96	11 dots jumbled around
5	ling	97	the square with the fewest figures
6	ling	100	11 crosses
7	ling	101	The one with the least dots
8	ling	102	the one with the fewest things in it
9	ling	105	The square with the fewest Xs.
10	ling	106	the one with in-between number of crosses
11	ling	107	square containing fewest symbols
12	ling	108	The one with the smallest number of plus-signs, covering the smallest area.
13	ling	111	The square with the fewest outlined brown circles (or, depending on the audience, target signs)
14	ling	112	Ten shapes in middle of square, with the top four roughly in a straight horizontal line and two at the bottom forming like legs.
15	ling	115	The one with fewest crosses
16	ling	116	the least number of circles
17	ling	117	about a dozen magenta pluses
18	ling	118	The square with the fewest objects in it.
19	ling	124	11 Xs
20	ling	125	The square with the fewest green ovals in it
21	ling	126	The one with the smallest number of lines.
22	ling	127	The square containing the middle number of dots.
23	ling	128	smallest number of crosses
24	ling	129	11 pink triangles
25	ling	130	Square with fewest contents
26	ling	132	It has the smallest number of little black bars.
27	ling	133	the square with the smallest number of objects
28	ling	134	square with eleven + signs
29	ling	135	The square with the smallest number of dots
30	ling	137	The square with approximately 10 figures is the one.

31	ling	138	the square with the fewer shapes
32	ling	139	
33	ling	140	the square with the least items inside
34	ling	141	The one with 11 crosses in it.
35	ling	142	The square with the least crosses in it.
36	ling	144	It has the least amount of lines.
37	ling	146	The one with the fewest symbols.
38	ling	148	The square with the least little squares in.
39	ling	149	Each square has a different number of shapes (11, 21 and 31 on my screen). The highlighted square has the least number of shapes (11 on my screen).
40	ling	150	The one with neither the highest nor the lowest number of lozanges int it.
41	ling	152	The one with the least squares.
42	ling	153	The one with the fewest circles
43	ling	154	a small group of plus signs in the middle of the square.
44	ling	155	It is the sqaure with the fewest number of ovals
45	ling	156	The square with the smallest amount of stripes in it.
46	ling	157	The square with the fewest pac-men
47	ling	158	It's the one with eleven crosses clustered near the centre
48	ling	159	the square has 11 pacman-shaped objects in it
49	ling	160	Select the square with the fewest objects in it.
50	ling	162	the square with 11 plus signs
51	ling	163	the square with twelve yellow dots
52	ling	164	The square with fewer packmen in it.
53	ling	165	the square with the smallest number of squares in it
54	ling	167	the least crowded.
55	ling	168	the square with the fewest gold circles in it
56	ling	169	The square contains the smallest number of dots.
57	ling	170	The one with fewest crosses
58	ling	171	the one with the fewest minus signs
59	ling	173	The square with the fewest lines in it.
60	ling	175	The square with the least minuses.
61	ling	176	Smallish cluster of 11 solid yellow-orange diamonds, arranged in rough vertical lines of four on the left, three to the right of center, and four on the right.
62	ling	177	the square with the fewest squares in it
63	ling	178	The square with the least butterfly shapes in it.
64	ling	179	The square with exactly 10 black circles in it.
65	ling	180	square with the smallest number of little squares
66	ling	181	The highlighted square contains the smallest amount of blue squares
67	ling	185	I already described this one
68	ling	188	The square with the fewest number of brown bow ties.
69	ling	189	The box with the least number of squares inside.
70	ling	190	a small group of lines in the centre
71	ling	191	The one with the fewest crosses
72	ling	192	the one with the fewest crosses.
73	ling	193	the square with 11 grey pac-mans.
74	ling	194	The one with the fewest circles

75	ling	195	the least blue crosses
76	ling	196	the one with the least plus signs in it
77	ling	197	The square containing the smallest number of triangles
78	raquel	86	f
79	xxxx	84	the one with fewer shapes

Item 11 XYZ-SR-L1

1	djb	81	three dots
2	djb	82	f
3	djb	83	f
4	ling	96	3 purple squares
5	ling	97	the square with 3 triangles in it
6	ling	100	3 squares
7	ling	101	The one with three lines
8	ling	102	the one with three squares
9	ling	105	The square with three dots.
10	ling	106	the one with three
11	ling	107	square containing three symbols
12	ling	108	The one with three green squares (versus one and two squares).
13	ling	111	the square with 3 greenish Xs
14	ling	112	Three shapes in middle of square, with two on top and one on bottom slightly to the right.
15	ling	115	The one with 3 shapes
16	ling	116	three bows
17	ling	117	three dirty orange squares
18	ling	118	The square with the three crosses in it.
19	ling	124	3 circles
20	ling	125	The square with three black dots in it
21	ling	126	The one with the three dots in it.
22	ling	127	The square containing three crosses.
23	ling	128	3
24	ling	129	3 gray x's
25	ling	130	Square with 3 items
26	ling	132	It has three pink bars, more than either of the other boxes.
27	ling	133	the square with three objects
28	ling	134	square with 3 dots
29	ling	135	the square with three lines in it
30	ling	137	The square has three green dots inside.

32	ling	138	the square with the three shapes inside it
33	ling	140	the square with the most items inside
34	ling	141	The square with three shapes
35	ling	142	The square with three crosses in it.
36	ling	144	It has 3 triangles.
37	ling	146	The one with three symbols.
38	ling	148	The square with three figures in.
39	ling	149	The highlighted square has the most shapes (3 on my screen).
40	ling	150	The one with three x's.
41	ling	152	The box with three dots.
42	ling	153	Three lines
43	ling	154	3 brown circles in the middle of the square.
44	ling	155	The square has three bow ties in it
45	ling	156	The square with three figures.
46	ling	157	The square with three squares
47	ling	158	The one with three small figures arranged near the centre
48	ling	159	the square has three diamond-shaped objects in it
49	ling	160	Select the square with 3 objects in it.
50	ling	162	the square with three horizontal lines
51	ling	163	the square with three red crosses
52	ling	164	The square with three little squares in it.
53	ling	165	the square with three diamonds in it
54	ling	167	the most crowded
55	ling	168	the square with three red diamonds in it
56	ling	169	The square contains three dots.
57	ling	170	the one with three dots
58	ling	171	the one with three dots
59	ling	173	The square with three circles in it.
60	ling	175	The square with the most squares.
61	ling	176	Cluster of three small black ellipses oriented laterally and positioned at the center of the frame.
62	ling	177	the square with three circles in it
63	ling	178	The square with three triangles in it.
64	ling	179	The square with exactly three identical designs in it.
65	ling	180	square with three dots
66	ling	181	The highlighted square has three crosses in it
67	ling	185	a group of three large red x's roughly forming a v on its side to the right
68	ling	188	The square with three red diamonds.
69	ling	189	the box with three outlined circles inside
70	ling	190	with three circles in it
71	ling	191	The one with the three lines
72	ling	192	the one with the three dots.
73	ling	193	the square with three pink dots.
74	ling	194	The one with three circles
75	ling	195	three pink triangles
76	ling	196	the one with three triangles in it

77	ling	197	The square containing 3 symbols
78	raquel	86	3
79	xxxx	84	3

36	ling	144	It has 3 squares in it.
37	ling	146	The one with three symbols.
38	ling	148	The square with three figures in.
39	ling	149	Square with the smallest number of shapes. My square has 3.
40	ling	150	The one with three squares.
41	ling	152	The one with just three x's.
42	ling	153	Three diamonds
43	ling	154	3 purple diamonds in the middle of the square.
44	ling	155	The square has three dots in it
45	ling	156	The square with three squares in it.
46	ling	157	The square with the least diamonds/squares
47	ling	158	The square contains three small crosses (or, the square with the fewest crosses)
48	ling	159	the square has three diamond-shaped objects in it
49	ling	160	Select the square with 3 objects in it.
50	ling	162	the square with three red circles
51	ling	163	the one with three black eye-shaped marks
52	ling	164	The square with just three little squares in it.
53	ling	165	the square with three ovals in it
54	ling	167	the least crowded.
55	ling	168	the square with only a few black ovals in it
56	ling	169	The square contains just three dots.
57	ling	170	the one with only three shapes
58	ling	171	the one with three bows
59	ling	173	The square with three ovals in it.
60	ling	175	The square with the least circles.
61	ling	176	Three magenta plus signs, arranged in a rotated L-shape that points down on the right side.
62	ling	177	the square with three 'x-es' in it
63	ling	178	The square with three circles in it.
64	ling	179	The square with three green squares in it.
65	ling	180	three figures
66	ling	181	The highlighted square contains three pacman icons
67	ling	185	three purple pyramid-shaped dots arranged in the form of a triangle
68	ling	188	The square with three small green circles.
69	ling	189	the box with three little Pac Men inside.
70	ling	190	one with three items in it
71	ling	191	The one with the fewest pluses
72	ling	192	the one with three triangles.
73	ling	193	The square with three red crosses
74	ling	194	The one with three lines
75	ling	195	three orange dashes

76	ling	196	the one with three squares in it
77	ling	197	The square containing 3 plus signs
78	raquel	86	3
79	xxxx	84	three shapes

Item 15 XY\_-NR-L1

	Who	ID	Response
1	djb	81	many triangles
2	djb	82	f
3	djb	83	fff
4	ling	96	20 Tan horizontal lines
5	ling	97	the square with the most figures in it
6	ling	100	largest number of circles
7	ling	101	The one with the most triangles
8	ling	102	the one with most dots
9	ling	105	The square with the most shapes.
10	ling	106	the one with more dashes
11	ling	107	square with the highest number of stripes
12	ling	108	The one with the most purple ovals (versus fewer and none).
13	ling	111	the square with the most blue dots
14	ling	112	Two dozen shapes, vaguely like a W or a pair of lungs, two shapes at the bottom.
15	ling	115	The one with most pacmans
16	ling	116	the biggest number of dots
17	ling	117	medium-sized number of purple butterflies, perhaps 20
18	ling	118	The square with the most dashes in it.
19	ling	124	the most exes
20	ling	125	The square with the greatest number of pink ovals in it
21	ling	126	The one with the most purple dots.
22	ling	127	The square containing the greatest number of shapes.
23	ling	128	one with most lines
24	ling	129	green circles [approximately 20]
25	ling	130	Square with largest number of items in it
26	ling	132	It has the largest number of purple squares.
27	ling	133	the square with the bigger number of objects
28	ling	134	square with maximum cross signs in it
29	ling	135	the square with the most triangles in it
30	ling	137	The square with more than 15 red dots inside is the right one.

31	ling	138	the square with the more shapes
32	ling	139	with more than 10 shapes
33	ling	140	the square with the most items inside
34	ling	141	The one containing the most squares
35	ling	142	The square with more crosses in it.
36	ling	144	It has the most circles in it.
37	ling	146	The one with the most symbols.
38	ling	148	The square with the most little squares in.
39	ling	149	Square with the most shapes. My square has 21 .
40	ling	150	The one with the largest number of purple triangles.
41	ling	152	The box with the most circles.
42	ling	153	The one with the most circles
43	ling	154	a spread out group of black ovals in the middle of the square.
44	ling	155	It is the square with the larger amount of diamond shapes
45	ling	156	The square with the most figures in it.
46	ling	157	The square with the most ovals
47	ling	158	The square contains twenty-one dashes
48	ling	159	the square has the highest number of rectangular-shaped objects in it
49	ling	160	Select the square with the most objects in it.
50	ling	162	the square with about 20 purple diamonds
51	ling	163	the square with the largest number of yellow dashes
52	ling	164	The square that has the most triangles in it.
53	ling	165	the square with the most shapes in it
54	ling	167	the most crowded.
55	ling	168	the square with the most blue crosses
56	ling	169	The square contains the largest number of dots.
57	ling	170	the one with most bars
58	ling	171	the one with the most plus marks
59	ling	173	The square with the most shapes in it.
60	ling	175	The square with the most amount of shapes.
61	ling	176	Large irregular cluster of square purple dots, roughly centered in the frame, that can be seen (with imagination) as an open-mouthed dog walking toward the right, tail up.
62	ling	177	the square with the greater number of crosses in it
63	ling	178	The square with the most diamonds in it.
64	ling	179	The square with about 20 plus-marks in it.
65	ling	180	square with the largest number of horizontal lines
66	ling	181	Out of the two filed squares, the highlighted one is the one with the most x-es
67	ling	185	the square with 21 small green plus signs arranged as if they represented a group of blank squares in a crossword puzzle
68	ling	188	The square with the greatest number of brown circles.
69	ling	189	the box with the most little bow-ties inside.
70	ling	190	big droup of circles in the centre
71	ling	191	The one with the most green thingies in it
72	ling	192	the one with the most rhombs.
73	ling	193	the square with at least fifteen purple crosses
74	ling	194	The one with the most triangles

75	ling	195	the most green ovals
76	ling	196	the one with the most circles in it
77	ling	197	The square containing the largest number of crosses
78	raquel	86	more
79	xxxx	84	more shapes

Item 16 XY\_-NR-S1

	Who	ID	Response
1	djb	81	least number of Xs
2	djb	82	f
3	djb	83	f
4	ling	96	11 black dots
5	ling	97	the square with fewer crosses
6	ling	100	smallest number of lines
7	ling	101	The one with less circles, but it still has some circles (i.e., not the blank one)
8	ling	102	the one with eleven bowtie pasta
9	ling	105	The square that's not blank, but doesn't have the most dots.
10	ling	106	the one with fewer dashes
11	ling	107	the square containing the smaller number of symbols but not the blank square
12	ling	108	The one with a smaller number of Pac-man figures, but not zero.
13	ling	111	The square with 11 black dots
14	ling	112	Around dozen shapes clumped together in centre of square but, three shapes at the bottom and nothing roughly in the upper left corner.
15	ling	115	The one with 11 shapes
16	ling	116	the one with less lines
17	ling	117	about a dozen black triangles
18	ling	118	The square with some triangles but not the most triangles.
19	ling	124	11 horizontal bars
20	ling	125	The square with eleven brown crosses in it
21	ling	126	The one with fewer Xs in it.
22	ling	127	The square containing eleven crosses.
23	ling	128	11
24	ling	129	11 purple dashes
25	ling	130	Square with lowest amount of items that is not zero
26	ling	132	It has eleven diamonds; one of the others has more and the other none at all.
27	ling	133	the square with the smaller number of triangles
28	ling	134	there are eleven + signs in it
29	ling	135	the square with the lesser number of marks in it (but not empty)
30	ling	137	The square has 10 dots in it

31	ling	138	the square with the less/fewer shapes, (but not the empty one)
32	ling	139	one of the non-empty squares, the one with fewer shapes
33	ling	140	the square with eleven items inside
34	ling	141	The square with 11 triangles in it.
35	ling	142	The square with less crosses, that is not empty.
36	ling	144	It has a few crosses in it.
37	ling	146	The one with some symbols but not the most symbols.
38	ling	148	The square with 11 little squares in.
39	ling	149	Each square has a different number of shapes (zero, 11 and 21 on my screen). The highlighted square has the median number (11 on my screen),
40	ling	150	The one with less figures but not empty.
41	ling	152	The one with the ten circles.
42	ling	153	Not the blank and not the one with the most triangles
43	ling	154	a tight bunch of brown circles in the middle of the square.
44	ling	155	the square has eleven crosses in it
45	ling	156	The square with the smaller amount of crosses in it.
46	ling	157	The non-empty square with the least crosses
47	ling	158	The square contains eleven squares clustered together near its centre
48	ling	159	the square has 11 crosses in it
49	ling	160	Select the square with some, but not the most, objects in it.
50	ling	162	the square with 11 orange circles
51	ling	163	the square with with eleven pluses
52	ling	164	The square that has fewer dots in it.
53	ling	165	the square with some circles in it, but fewer circles than the other square
54	ling	167	the less crowded one among the non-empty ones.
55	ling	168	the square with an intermediate number of red squares
56	ling	169	The square contains dots, but not the highest number of dots.
57	ling	170	The one with less shapes in it.
58	ling	171	the one with ten triangles
59	ling	173	The square with the fewest plus signs in it.
60	ling	175	The non-empty square with fewer pacmans.
61	ling	176	An irregular cluster of 11 tan X's roughly centered in the frame. As a group, the X's appear oriented to point toward the upper left and lower right corners of the from.
62	ling	177	the square with the lesser number of hyphens in it
63	ling	178	The square with some circles in it, but not the one with the most circles.
64	ling	179	The square with exactly 10 grey triangles in it.
65	ling	180	square with the smaller number of crests
66	ling	181	Out of the two squares that have blue squares in them, the highlighted one is the one with fewer squares
67	ling	185	eleven black round dots placed together so that they are roughly in the shape of a small e
68	ling	188	The square with some violet circles, but not the one with the most.
69	ling	189	The box with fewer pink ovals inside: 11.
70	ling	190	one with a smaller group of triangles in it
71	ling	191	The one which has some shapes in it, but not the most shapes
72	ling	192	the one with the eleven Xs.
73	ling	193	The square with 11 bowties in it
74	ling	194	The one with eleven circles

75	ling	195	11 crosses
76	ling	196	the one with 11 circles in it
77	ling	197	The square containing the smallest number of squares (but not zero)
78	raquel	86	few
79	xxxx	84	fewer

4	ling	96	3 teal hollow bowties
5	ling	97	the square with 3 figures
6	ling	100	3 diablo's
7	ling	101	The one with three squares
8	ling	102	the one with three diamonds
9	ling	105	The square with three dots.
10	ling	106	the one with three
11	ling	107	square containing three triangles
12	ling	108	The one with the most green plus signs (versus 1 and zero).
13	ling	111	The square with three red plus signs
14	ling	112	Three shapes arranged like letter L in middle of square.
15	ling	115	The one with three shapes
16	ling	116	three squares
17	ling	117	three blue plus signs in a clump
18	ling	118	The square with three objects.
19	ling	124	3 of the bowties
20	ling	125	The square with three objects in it
21	ling	126	The one with three plus signs in it.
22	ling	127	The square containing three dashes.
23	ling	128	3
24	ling	129	three x's
25	ling	130	Square with largest quantity of items in it
26	ling	132	It has three butterfly shapes, more than the other squares.
27	ling	133	the square with three dots
28	ling	134	square with three triangles
29	ling	135	the square with three circles in it
30	ling	137	The square has 3 figures inside

31	ling	138	the square with the one shape in it
32	ling	139	
33	ling	140	the square with three items inside
34	ling	141	The square with three lines in it.
35	ling	142	The square with three pacmen in it.
36	ling	144	It has 3 crosses.
37	ling	146	The one with three symbols.
38	ling	148	The square with three lines in.
39	ling	149	Each square has a different number of shapes (zero, 1 and 3 on my screen). The highlighted square has the most shapes (3 on my screen).
40	ling	150	The one with three dashes.
41	ling	152	The one with three shapes.
42	ling	153	Three crosses
43	ling	154	3 yellow open circles in the middle of the square.
44	ling	155	it is the square with three cubes within it
45	ling	156	The square with three dots.
46	ling	157	The square with three diamonds/squares
47	ling	158	The square contains three triangles arranged near the centre
48	ling	159	the square has three objects in it that are shaped like bowties or hourglasses
49	ling	160	Select the square with 3 objects in it.
50	ling	162	the square with three triangles
51	ling	163	the one with three yellow circles
52	ling	164	The square with three "plus" signs in it.
53	ling	165	the square with three circles in it
54	ling	167	the most crowded.
55	ling	168	the square with three bowties in it
56	ling	169	The square contains three dots.
57	ling	170	The one with three bars
58	ling	171	the one with three minuses
59	ling	173	The square with 3 ovals in it.
60	ling	175	The square with three double triangles.
61	ling	176	Three small solid magenta flying saucers flying in formation, with the lead saucer moving to the left.
62	ling	177	the square with three dots in it
63	ling	178	The square with three butterfly shapes in it.
64	ling	179	The square with three red shapes in it.
65	ling	180	square with three dots
66	ling	181	The highlighted square contains three pink circles
67	ling	185	three purple minus signs arranged so that they resemble the eyes and nose on a face
68	ling	188	The square with three green Pacman shapes.
69	ling	189	The box with three small blue squares inside.
70	ling	190	three crosses in the centre
71	ling	191	The one with the three triangles
72	ling	192	the one with the three shapes.
73	ling	193	the square with three blue ovals.
74	ling	194	The one with three pokemons
75	ling	195	three blue squares
76	ling	196	the one with three circles in it

77	ling	197	The square containing 3 dots
78	raquel	86	3
79	xxxx	84	3

6	ling	100	one diamond
7	ling	101	The one with one diamond
8	ling	102	the one with one cross
9	ling	105	The square with one dot.
10	ling	106	the one with one cross
11	ling	107	square containing only one symbol
12	ling	108	The one with one dot (versus three dots and zero dots).
13	ling	111	The square with a single X
14	ling	112	One lonely shape with its mouth open in the middle of the square.
15	ling	115	The one with exactly one cross
16	ling	116	one diamond
17	ling	117	one grey circle
18	ling	118	The square with one pacman in it.
19	ling	124	1 lozenge
20	ling	125	The square with only one teal diamond in it
21	ling	126	The one with a single diamond shape in it.
22	ling	127	The square containing one triangle.
23	ling	128	1 shape
24	ling	129	1 olive circle
25	ling	130	Square with single visible item
26	ling	132	It contains a single brown circle.
27	ling	133	the square with a single triangle
28	ling	134	square with one dash sign
29	ling	135	the square with one mark in it
30	ling	137	The square has exactly one dot inside.

31	ling	138	the square with the one only (diamond) shape in it
32	ling	139	
33	ling	140	the square with one item
34	ling	141	The square with one dot.
35	ling	142	The square with one shape in it.
36	ling	144	It has one oval in it.
37	ling	146	The one with one dot.
38	ling	148	The square with one thing in.
39	ling	149	Each square has a different number of shapes (zero, 1 and 3 on my screen). The highlighted square has the median number (1 on my screen).
40	ling	150	The one with one figure in it.
41	ling	152	The one with just one x.
42	ling	153	One pacman
43	ling	154	A single purple 'pacman' shape in the middle of the square
44	ling	155	The square has one hollow dot
45	ling	156	The square with one triangle.
46	ling	157	The square with one object
47	ling	158	The square contains a single diamond
48	ling	159	The square has one pacman-shaped object in it
49	ling	160	Select the square with one object in it.
50	ling	162	the square with one aqua oval
51	ling	163	the square with just one blue leaf-like shape
52	ling	164	The square with one dot in it.
53	ling	165	the square with a single pacman-like shape in it
54	ling	167	the one with a single bullet.
55	ling	168	the square with one green pacman shape
56	ling	169	The square contains just one dot.
57	ling	170	The one with one square
58	ling	171	the one with a single dot
59	ling	173	The square with one pacman shape in it.
60	ling	175	The square with one oval.
61	ling	176	One small gray triangle pointing up at the center of the frame.
62	ling	177	The square with one hypthen in it
63	ling	178	The square with one diamond in it.
64	ling	179	The square with one short line in it.
65	ling	180	one small circle
66	ling	181	The highlighted square contains one dot
67	ling	185	a single blue square-shaped dot placed in the centre of a square
68	ling	188	The square with one small plus sign.
69	ling	189	the box with one triangle inside
70	ling	190	one item in the centre
71	ling	191	The one with the one line
72	ling	192	the one with only one X.
73	ling	193	the square with one orange circle
74	ling	194	The one with a single triangle
75	ling	195	one pink line

76	ling	196	the one with a single cross in it
77	ling	197	The square containing one triangle
78	raquel	86	1
79	xxxx	84	the one with 1 shape

Item 19 X\_\_-NR-1

	Who	ID	Response

8	ling	102	the one that is not empty
9	ling	105	The square that is not blank.
10	ling	106	the one with the dots
11	ling	107	the only square that contains symbols
12	ling	108	The one with figures (versus two without any figures).
13	ling	111	the square with 11 purple rectangles
14	ling	112	Mass of shapes in the middle of square, one shape at the lower left, two at the upper right.
15	ling	115	The one with many pacmans
16	ling	116	
17	ling	117	about a dozen blue diamonds
18	ling	118	The square with the dots in it.
19	ling	124	11 crosses
20	ling	125	The only square with objects in it
21	ling	126	The one with the xs in it.
22	ling	127	The square containing crosses.
23	ling	128	green lines
24	ling	129	11 brownish-red dashes
25	ling	130	Non blank square
26	ling	132	It contains some grey circles, while the other squares have none.
27	ling	133	the only square with a pattern in it
28	ling	134	no-empty square
29	ling	135	the square that is not empty
30	ling	137	The square is the only one with something inside

32	ling	138	the square with the crosses inside it
33	ling	140	the non-empty square
34	ling	141	The only one with shapes inside it.
35	ling	142	The square with little squares inside it.
36	ling	144	It has some squares in it.
37	ling	146	The one with many symbols.
38	ling	148	The square with some dashes in.
39	ling	149	Two squares have the same number of shapes (zero on my screen). The highlighted screen has a different number of shapes (11 on my screen).
40	ling	150	The one with with pink butterflies on it.
41	ling	152	The one with the triangles in it.
42	ling	153	The one with orange shapes in it
43	ling	154	a bunch of blue squares in the middle of the square.
44	ling	155	The relevant square has eleven minute squares clustered together
45	ling	156	The square with the small squares in it.
46	ling	157	The non-empty square
47	ling	158	The square contains eleven small diamonds
48	ling	159	the square has 11 round objects in it
49	ling	160	Select the square with x's in it.
50	ling	162	the square with 10 orange circles
51	ling	163	the one with blue dots
52	ling	164	The square that has the dots in it.
53	ling	165	the square with the diamonds in it
54	ling	167	The non-empty one.
55	ling	168	the square with some purple x's in it
56	ling	169	The square contains dots.
57	ling	170	The one with crosses
58	ling	171	the only one with dots
59	ling	173	The square with shapes in it.
60	ling	175	The square with the Xs.
61	ling	176	A fairly tight cluster of 11 blue dots, centered in the frame. Inside the cluster you'll notice a rough line of 4 dots on a 45 degree diagonal that slants to the right, with another line of 2 dots parallel to it further out and up.
62	ling	177	the square with the 'x-es' in it
63	ling	178	The square with the crosses in it.
64	ling	179	The square with 10 yellow squares in it.
65	ling	180	square with the triangles
66	ling	181	The highlighted square is the only one that contains figures
67	ling	185	eleven green circular dots placed randomly close together
68	ling	188	The square with lots of small black squares in it.
69	ling	189	the box with grey ovals/football shapes.
70	ling	190	a group of small black elykses in the centre of the square
71	ling	191	The one with the dots
72	ling	192	the one with the red circles in it.
73	ling	193	The square with 11 blue ovals in it
74	ling	194	The one with lines in it

75	ling	195	the only one with black diamonds
76	ling	196	the one with shapes
77	ling	197	The square containing crosses
78	raquel	86	with
79	xxxx	84	with shapes
